The ISO-9030BT tested is available in different configurations (See Below)

ISO-8030	Standard Unit (Basic Keypad)
ISO-8030BT	Standard Unit with Bluetooth(Basic Keypad)
ISO-9030	With Alpha/Numeric Keypad
ISO-9030BT	With Alpha/Numeric Keypad and Bluetooth

Testing was performed on model ISO-9030BT (with Alpha/Numeric Keypad and Bluetooth (pre-approved)).

All results for this model are reported in this application (FCC ID:XBH-80309030).

Description of the different configurations

ISO-8030 Standard Unit

This unit is the most basic of the series. The ISO-8030 unit has all off the components of the ISO-9030BT tested with the basic keypad and no Bluetooth module.

ISO-8030BT with Bluetooth

This unit has the Bluetooth option. The ISO-8030BT unit has all off the components of the ISO-9030BT tested with the basic keypad

ISO-9030 with Alpha/Numeric Keypad

This unit has the Alpha/Numeric Keypad. The ISO-9030 unit has all off the components of the ISO-9030BT tested with no Bluetooth.

ISO-9030BT with Alpha/Numeric Keypad and Bluetooth

This unit is the most Complex of the 8030 & 9030 models with all options. Therefore this unit was used for the test to test all functions and options of the 8030 and 9030 Models.

Regards,

John W Finlayson
Managing Director
